- Drill 5/16" Holes
- Drill 3/4" Holes

A stylized line drawing of a Christmas tree. The tree is constructed from numerous wooden planks of varying lengths and widths, arranged in a conical shape. The planks are layered to create a sense of depth and texture, with some planks extending further out than others. The overall form is triangular, tapering towards the top. The drawing is simple and graphic, using only black outlines on a white background.

Drill In the Corners + Cut Along the Lines with Jigsaw

A line drawing of a tall, conical structure made of sticks, resembling a teepee or a large bonfire. The structure is composed of many long, thin sticks or logs arranged in a radial pattern, meeting at a point at the top. A small fire is burning inside the structure, with flames and smoke visible. The drawing is simple and stylized, with no shading or texture.
